

PRESS RELEASE

16 December 2009

For the 3rd year in a row, Leomil has been awarded in the top global licensees.

License!Global has published again its “Top Global Licensees”, which is considered an exclusive resource, listing licensees across top merchandise categories. “Companies that partner together to generate product that is on trend, priced right and on shelf when the customer wants it.” Only companies that fit this description and throughout the year turned significant brands into compelling merchandise and comprehensive licensing programs make it to the list.

For the 3rd year, Leomil is one of the two European companies that have been awarded in the footwear category.

The Leomil Group is specialized in the development and marketing of footwear and apparel based on character franchises and in distribution to all European chains. Over time, Leomil has developed a European leadership position in this field.
