

THE TOP 100 GLOBAL LICENSEES

An exclusive list of the top suppliers in over 20 merchandise categories.

The second annual Top Licensees special report features the key data of 100 licensee companies from every major product category. *License! Global* expanded this year's list from 75 licensees reported in 2006, and this year is including companies based outside the United States.

The Top 100 Global Licensees is recognized as an invaluable resource for retailers and licensors and a quick and easy year-round reference guide.

The exclusive report includes contact information, primary business, licenses held, and competitive point of difference for each company. The categories include apparel, accessories, collectibles, electronics, food and beverage, gifts, greeting cards, health and beauty, home decor, housewares, music, video, party goods, pet products, publishing, toys, trading cards, video games, sporting

goods, and stationery products.

License! Global solicited nominations from retailers and licensees with a ballot posted on its Web site, www.licensemag.com. Nominations were based on the following criteria:

- Successful relationships between retailers/vendors and licensor/licensee;
- Product performance at retail;
- Quality, design, and innovation of licensed product; and
- Effective promotional materials and in-store collateral.

The *License! Global* editorial staff compiled and edited the Top 100 Licensee list, which is presented alphabetically. The list is not a ranking, but a resource guide of the top licensees based on important criteria recognized by executives industrywide.
